

Details of the Course

What is Ideation?

Ideation in Entrepreneurship means beginning stage of the Venture. Ideation is defined as the process involved in generating ideas, including gathering information on ideas and collecting thoughts about those ideas. Ideation is used to make improvements to existing products or services, in addition to generating new ideas and concepts for future developments.

Target Audience:

Ventures which are in the ideation stage/start-ups and are intended to learn and grow from the various opportunities and from the experiences of the successful entrepreneurs
